## Statistical Analysis

- ✓ Data normality: Shapiro–Wilk *test*
- ✓ *Student's* t-test if normality, otherwise Wilcoxon rank sum test (Mann Whitney U test)
- ✓ Effect size: Cohen's *d*
- ✓ **Comparison of mPTS  $<12^\circ$  and  $\geq 12^\circ$ , sample of 24 knees to obtain 95% power**
- ✓  $p < 0.05$  considered statistically significant
